

Snap on Smile Care Sheet

A Snap on Smile is a custom made appliance that literally snaps on over your existing teeth to cover up broken, decayed, or missing teeth.

To maintain the quality of your appliance follow these care instructions:

Use both hands to remove appliance, gently rock side to side, never squeeze or flex appliance.

Remove and rinse appliance after meals.

Remove and rinse before bed unless Doctor instructs you otherwise.

Clean every time you remove appliance from your teeth.

Brush inner parts of the appliance 2 times a day with a soft toothbrush.

Don't use regular toothpaste when brushing appliance, it can dull the finish. Use plain water instead.

Always store your appliance in its case when you're not using it.

When you first use your appliance:

Start with a softer food diet to get used to eating with it, then work up to eating harder foods.

Speech can be effected first several hours of wear, it varies from person to person.

If you have any questions or concerns please call our office at (208)-529-3836.
